

Due to the continued growth of the company, and strong a future order book, AJ Engineering & Construction Services Ltd wish to hire enthusiastic individuals for Fabricator/Welder vacancies.

Requirements:

- Be able to carry out work to safety and quality standards
- Have the ability to understand and work from detailed fabrication drawings
- Be able to accurately measure and work to tight tolerances
- Be able to fabricate and weld metals using MIG/FCAW to a high standard, TIG experience would be advantageous but not essential
- Ability to use standard workshop tools and equipment
- Ensure work areas are kept tidy at all times
- Ability to produce products consistently on time
- Must be reliable with a strong work ethic

As part of our interview process, you may be required to visit our workshop to carry out a trade test.

Finally, we would like you to have strong communication skills, be self-motivated with the ability to work both alone and as part of our team.

Competitive rates of pay DOE.

Please apply in writing with your cover letter and CV to Fiona Anderson, Office Manager recruitment@ajengineering.co.uk
