

## **Graduate Apprenticeship (GA) in Construction and the Built Environment BSc (Hons)**

Are you trying to decide between university and an apprenticeship? You know that getting a degree will be important, but you're also keen to earn some money and gain practical experience.

A Graduate Apprenticeship offers the best of both worlds. Meaningful paid work experience, on-the-job training, alongside part time study at a top university.

Join us as a Construction and the Built Environment Graduate Apprentice, and in 4 years' time you could be graduating debt-free with a BSc (Hons) and 4 years of work experience under your belt. It's an incredible way to start your career.

### **What will I learn?**

A Graduate Apprenticeship is about much more than getting a degree. Because it's work-based, you'll also gain a whole range of useful experience and skills such as:

- Project and delivery management
- Valuation of land and property
- Understanding the principles of design and technology
- Understanding and applying laws, standards and regulations
- Business concepts such as data management, finance and strategies
- Working solo and in a team on solutions in construction and the built environment
- Understanding negotiation, effective work habits, leadership and communication
- Health and safety, welfare, environment and quality issues
- Professional and ethical conduct

### **What's the qualification?**

#### **SCQF Level 10**

You'll gain a Graduate Apprenticeship at SCQF Level 10. When you complete it, you'll achieve the following qualification(s):

- BSc (Honours) degree in Construction and the Built Environment at SCQF Level 10

### **Entry Requirements?**

SQA Higher: BBBC

### **Alternative Qualifications**

We welcome applications from those with equivalent qualifications or work experience which equip them with an equivalent starting point for the course. For those applicants who do not meet the Standard Course Entry Requirements, applications may be considered from those who possess one years' relevant work experience and where the applicant has demonstrated the development of key skills evidenced through a detailed CV. Applications from students with non-standard qualifications (including Foundation Apprenticeships, Modern Apprenticeships, SVQs/NVQs and access programmes) or work experience will be considered on an individual basis.

Apply in writing with your CV and cover letter to Fiona Anderson, Office Manager
