

**WE'RE HIRING - PROJECT ESTIMATOR**

*(WFH or Office Based)*

Due to sustained growth an excellent opportunity has arisen to join our team as a Project Estimator at AJ Engineering & Construction Services Ltd, part of the RSK Group.

This full-time role involves tendering nationwide projects from initial enquiry through to tender submission.

The successful candidate will be an integral part of the estimating function independently managing allocated tenders:

**The main responsibilities are:**

- Preparation of accurate cost estimates for projects by analysing drawings, 3D models, project specifications and other applicable documentation.
- Develop and maintain relationships with key suppliers, customers and relevant stakeholders.
- Identify and assess project risks and opportunities.
- Attend pre-tender start meetings to ascertain and develop projects scopes with customers.
- Plan and deliver comprehensive handovers to project managers for awarded projects.

**Our ideal candidates will have:**

- 3 years + of proven estimation experience with structural steelwork and access metalwork.
- Strong knowledge of steel materials, fabrication, and erection techniques.
- Ability to read and understand UK standards and client driven specifications.
- Advanced proficiency in Microsoft Office
- Strong attention to detail and numerical accuracy.
- Ability to perform cost analysis and value engineering where required.
- Experience & understanding in cladding would be advantageous but not essential.
- An understanding of CNC cut, and drill equipment would be advantageous but not essential.

**Benefits & Package:**

- Competitive Salary
- Company Pension
